

# Speexx Premium Services

## Always included for Generali Group

### **Performance Center**

Speexx Performance Center provides your organization with the tools to track and analyze learning progress for projects and individual students in real time. HR, L&D and training managers are presented with data analytics in clear and visually appealing charts in one easy-to-use dashboard. Detailed data on activity and results for individual learners allow for monitoring and motivating individual users. Create targeted action plans together with the Speexx team to continuously improve training results.

### **Project Management**

Speexx is an end-to-end provider of blended language learning services. We specialize in the administration of completely outsourced language training services for large multinational corporations.

HR and training managers are provided with a dedicated Customer Success Manager and a Project Management Team, in charge of guaranteeing project's success and client's satisfaction.

### **Kick Off**

Speexx course introduction in a live webinar.

### **Help Desk**

Multi language first-level support and customer care, access to the global trainer network and support with local experts.

Our help desk, service teams and global trainer network are available through a cloud-based customer service ticketing software.
